

## **Rich Bernhardt**

My beginning at Shadow Hills started in 1998 when Donna and I joined. Since that time I have enjoyed the golf and making new friends. I have served on several committees and was a board member for three terms. I was elected board president for the years 2013 and 2017. After having a time away from the board I found I missed the interaction and being a part of the decision making team. I also feel the board can benefit from my past experience as well as my desire to get things done.

Shadow Hills is like a second home to me, as it is to many others, and I want nothing but the best for the future generations of members who join our golfing family.

We have accomplished a lot for the benefit of our club and I have visions of making it even better. I'm currently on the Long Range Planning Committee and being on this committee we have recently accomplished several projects. The new restroom which I headed up the planning, budgeting and construction is an example. I have also served on the finance committee, and several years on the greens committee. I was also on the committee that directed the design and construction of our new club house.

In my past, I helped start and served as president of an engineering firm for 30 years building it from a start up to a large multi office firm. My experience with this will help me guide the board on future decisions.

New ideas and people are always a plus, but when mixed with wisdom and experience it's even better.

I'm hoping you will cast a vote for wisdom and experience,

Thanks,

Rich Bernhardt

## **Cheyenne Burbank**

"I first came to Shadow Hills CC in 2009 as player on U of O Women's golf team and immediately knew it was a special place. Fast forward 10 years, my family and I jumped at the opportunity to become members in Spring of 2020 during Covid. Since that time, I have served 2 years on the Greens Committee, as well as assisted in teaching ladies and kids golf clinics throughout the year. I am excited about the potential to be involved in a decision making capacity at the club where I can use my strengths to be a voice for the membership. I believe my extensive golf background, as well as the work I do as a Financial Advisor, will serve as a unique perspective that would be an asset to the Board of Directors."

Thank you for thinking of me for this position!

## Jeff Malpass

My name is Jeff Malpass and I am running for a seat on the Board of Directors. I'm a single father of a 17 year old and live a pretty simple life playing golf and working a part-time job on the weekends. I've been playing golf for over 50 plus years and played high school and college golf, currently possessing a 4.9 index. I worked for Georgia Pacific chemical division for 20 years before retiring 8 years ago. I had weekly meetings at GP and I feel that my corporate training in incident investigations/reporting would be of value to Shadow Hills. My team skills include identifying problems, gathering information and finding solutions/resolutions. On a personal note, I embrace diversity along with the unique ability to find alternative solutions that aren't necessarily "mainstream." My core values are honesty, integrity and simply doing the right thing. Common sense is of utmost importance and I'm looking forward to representing the voice of this Club and its members. Thank you all for your consideration. Jeff

## Matt Prehm

I am honored to be nominated to run for the Board of Directors at Shadow Hills Country Club. The club is a special place for many of us here, and I want to help ensure the club's traditions are maintained while also helping guide the club's future to be even better for our current and future members. I'd like to help create more events for junior members and families while also building on the already established adult events on and off the golf course. I feel like my skills within the media landscape and my past work experience planning and executing events can benefit the club to further enhance the membership experience.

My family and I joined Shadow Hills in the spring of 2020. Within just a few short months, our family was hooked. We found ourselves signing up our boys (Ryan and Ethan) for anything available for junior golfers. My wife Jaime and I tried a Crazy 8 scramble, and now she plans our summer around them. We've added playing in the Men's and Women's leagues and other golf tournaments at Shadow Hills. You could say between playing golf, spending time at the pool, attending events, and enjoying meals out at the restaurant, Shadow Hills has become our home away from home.

My wife and I both grew up in the Eugene area and decided, after attending college in different parts of the country, to return to Eugene and start our family here. Our older son Ryan is 12 and is in middle school, and our youngest son Ethan is eight and attends elementary school. Our kids attend the same schools we did growing up at their age as we want to have our kids around the same community and values we grew up with. Those same values and a sense of community have been found here at Shadow Hills and are a big part of why my wife and I find this club to be so important to our family.

Professionally as my kids like to say, my job is to watch sports. In reality, I am a sports journalist who has covered Oregon athletics for 247Sports since 2009. I've had the pleasure to cover two national championship games for college football, multiple Rose Bowl games, a Final Four trip, many bowl games,

and NCAA Tournaments. My duties include doing interviews with Oregon athletes, coaches, and other people involved in college and pro sports, writing articles, producing podcasts, and managing our social media outlets. From 2008 to 2015, I also worked full-time at Cumulus Broadcasting in Eugene, meaning I worked two full-time jobs for almost six years. During my time there, I helped produce on-air sports radio shows and managed the board-operator duties for Oregon football, basketball, baseball, and Eugene Emerald games. I ended my time at Cumulus as the cluster of radio stations' Promotions Director for my final three years. I was in charge of creating events and running events for five radio stations to ensure they were visible to the public. Both jobs required me to work in a fun and fast-paced environment with tight deadlines and the need to be able to work with a team to get tasks done quickly while making sure to never miss a big play in a game!

### **Penny Sykes**

After being on the Board of Directors at Shadow Hills for three years, I have learned a lot and feel as though I have been actively involved in the works of the club.

As most of you know I play a lot of golf and have always found it to be my “happy place”. For years, I have been busy with the Ladies Leagues and their Board as well. I am also on the membership committee here. I enjoy being involved with the Oregon Women’s Golf Association (OWGA).

Historically, I am a wife (54 years), mother of two, grandmother of two, retired school teacher (30 years), from Colorado, live in Junction City, and proud to be a member of Shadow while running for the board of a wonderful golf course and club.
